6. Rationale of the Scheme
 - i. Deep primarily operates in two business segments: (i) Oil and Gas Services Business comprising of air and natural gas compression services, gas dehydration, work over and drilling rig services; and (ii) oil and gas exploration and production. Each of the businesses carried on by Deep by itself and along with its subsidiaries including Oil and Gas Services Business have significant potential for growth and profitability. The nature of risk, competition, challenges, opportunities and business methods for Oil and Gas Services Business is separate and distinct oil and gas exploration and production business. The Oil and Gas Services Business and oil and gas exploration and production business of Deep are capable of attracting a different set of investors, strategic partners, lenders and other stakeholders. There are also differences in the manner in which Oil and Gas Services Business and oil and gas exploration and production business of Deep are required to be handled and managed. In order to lend greater/enhanced focus to the operation of the said businesses, it is proposed to re-organize the Oil and Gas Services Undertaking by way of demerger and transfer of the

same from Deep to Deep CH4. The proposed demerger would result in segregation of Oil and Gas Services Undertaking into Resulting Company and housing of active exploration and production assets relating to oil and gas exploration and production business into Demerged Company.

- ii. The proposed segregation would enable greater/enhanced focus of the management in the Oil and Gas Services business and Oil and Gas Exploration and Production business whereby facilitating the management to efficiently exploit opportunities for each of the said businesses.
- iii. The management believes that the proposed demerger will result in unlocking the true value of Oil and Gas services business thereby creating enhanced value for shareholders and will also allow a focused strategy and specialization for sustained growth, which would be in the best interest of all the stakeholders connected with Deep.
- iv. The proposed demerger will also provide scope for independent collaboration and expansion for each of the businesses as well as enable attracting investors and provide better flexibility in accessing capital for each of the businesses carried on by Deep.

In view of the aforesaid, the Board of Directors of both the Companies have considered and proposed the Scheme of Arrangement under the provisions of 230 to 232 read with section 66 of the Companies Act, 2013 and other applicable provisions of the Act.
